## SCHEDULE OF APPROVALS - DECEMBER 12, 1966

### Design Items

1

**Route US 9 (1953), Sections 25C & 1A**

**Approval is recommended of the plans and specifications for submission to the Bureau of Public Roads and for authority to advertise for bids after approval has been received from the Bureau for Route U.S. 9 (1953) Section 25C & 1A, Construction of Concrete Barrier Curb on Edison Bridge and Approaches, Borough of Sayreville and Woodbridge Township, Middlesex County, Federal Project No. N.J.-F-128(6).** Construction Program Year - 1965-66, Item No. 28. (December 9, 1966)

**Advertising - McGuire Air Force Base Defense Access Road**

2 Approval is recommended of the plans and specifications for submission to the Bureau of Public Roads and authority to advertise after approval has been received from the Bureau for Grading, Paving and Culverts on McGuire Air Force Base Defense Access Road from County Route Spur 528 at McGuire Boulevard, to Junction of County Routes 537 and 545, Townships of Chesterfield, New Hanover, North Hanover and Springfield, Burlington County, Federal Project No. R-AD-2(1). (December 7, 1966)

**Services - Engineering - Route 15**
**Howard, Needles, Tamman & Bergendoff**

3 Our agreement with Howard, Needles, Tammen and Bergendoff, relative to engineering services in connection with Route 15, stipulates a fee compensation of 4.3% of an estimated construction cost of 9.7 million dollars. This agreement also provides for a renegotiation if the construction cost originally assignable varies by more than 10%. The plans were nearly completed before the freeway concept was considered with an estimated construction cost greater than 10% of the aforementioned 9.7 million dollars. The consultant has, therefore, requested an updating of the fee, and the Department has concurred with this premise.

The scope of services have been increased, since the project was initially consummated. An additional 1.5 million dollars of construction money can be associated with an increase in scope. The estimate of construction cost for this project should be increased to at least 11.2 million dollars. With this adjustment in construction monies, it is possible to reduce the basic fee percentage from 4.3% to 4.25%. The final fee would, therefore, equate to $476,000. In order to provide for the 10% contingency factor, an additional $47,600 is necessary, or a total of $523,600. Since the initial ceiling was $417,100, an additional $106,500 is necessary. It is recommended that this amount be set up. (December 6, 1966)

**Services - Engineering, Route 24 Freeway**
**Howard, Needles, Tammen & Bergendoff**

4 Approval and execution is recommended of the attached Agreement dated December 7, 1966, between Howard, Needles, Tammen & Bergendoff and the State of New Jersey covering understandings in connection with the performance of engineering services relative to the State's construction of Route 24 Freeway from the end of the present construction, immediately east of the Erie Lackawanna Railroad crossing of existing Route 24 in Summit, Union County, westwardly through Union and Essex counties to Brooklake Road in the Borough of Florham Park, Morris County, a distance of approximately 3.8 miles.

The Consultant is to be remunerated for his services as follows:

| | |
|---|---|
| 1. Monthly installments toward a ceiling of . . . . . . . . . . | $805,000.00 |
| 2. Repayment for soils exploration and/or tests toward an estimated ceiling of . . . . . . . . . . . . . . . . . . . . . . | 110,000.00 |
| 3. Repayment for prints and reproductions toward an estimated ceiling of . . . . . . . . . . . . . . . . . . . . . . . . | 6,000.00 |
| 4. For negotiated extra estimated work . . . . . . . . . . . . | 50,000.00 |
| 5. Use of an electronic computer lump sum of . . . . . . . . . | 20,000.00 |
| 6. Use of motor vehicles toward a ceiling of . . . . . . . . . | 2,000.00 |
| 7. Contingencies . . . . . . . . . . . . . . . . . . . . . . . | 99,000.00 |
| 8. Total to be set up . . . . . . . . . . . . . . . . . . . . . | $1,092,000.00 |

(December 9, 1966)

**Services - Engineering**
**DeLeuw, Cather & Company - Route 169**

5 **During the development of design plans for Route 169 the consultant, DeLeuw, Cather & Company, performed additional services not included in the original agreement dated November 11, 1963.**

**In order to provide reimbursement for the extra work, the ceiling must be raised according to the following costs and related items: $9,600 for additional studies; $1,700 for preliminary plans abandoned; $1,000 for premium time; $800 for digging of test pits; $600 for pier location stake-out; $2,700 for structural changes; $6,600 for designs not included in plans; $6,400 for right-of-way changes; $5,900 for lighting; $22,000 for extra cost assignable to abandoned designs.**

**The aforementioned items total $57,300. It is, therefore, recommended that the present ceiling of $121,000 be increased by this amount to $178,300.**

**The evaluation of the basic fee is still being discussed. It is possible, therefore, that additional monies will be required for this account so the aforementioned appropriation can be considered an interim set up. (December 6, 1966)**

## SCHEDULE OF APPROVALS - JANUARY 10, 1967

### Administration Items

Claims - Settlements

1 This claim arises out of an accident occurring on November 3,1961 on Route #3, Weehawkin, New Jersey involving a piece of equipment owned by Grace Line, Inc. and operated by Alfred Notto. As a result of the aforesaid accident State Highway Department owned lighting pole and retaining wall were damaged and had to be repaired at a cost of $1,154.40. It was later developed by the Claims Bureau that the equipment involved was being operated by an employee of the Major Equipment Company on behalf of Bull Steamship Lines and that the equipment involved had license plates belonging to the Hyster Company. Upon presenting the State's claim to all parties involved, all denied liability and refused payment. The Claims Bureau then instituted a District Court Action against all parties involved, with the exception of Major Equipment Company, which had gone into bankruptcy since the accident in question occurred.

Just prior to a trial date the four defendants, who were served in this matter,offered to settle our claim for $800.00. This offer was taken up with Joseph Lipkin, Esq., Counsel to the State Highway Department, who recommended that the offer be accepted.

In view of the foregoing, it is my recommendation, and in accordance with Mr. Levine's memorandum attached hereto, and the recommendation of Deputy Attorney General, Joseph Lipkin, that the offer of settlement in the amount of $800.00 be accepted and the balance in the amount of $354.40 be cancelled.

Services - Subsurface Borings ✓
Route 22 Viaduct

4 In order to expedite the widening of the Route 22 Viaduct, it was necessary to have the subsurface borings performed by outside forces. The Department, therefore, requested that Madigan-Hyland assist in this endeavor and a special agreement was prepared on January 25, 1966, which in essence, has our consultant act as an intermediary between the Department and the boring contractor.

Bids have been received and the Department accepted the estimate of cost for the work. It is apparent that the original ceiling of $50,000 is not sufficient to cover the costs involved. It is estimated that the borings will cost approximately $80,000, so an additional $30,000 is necessary. It is, therefore, recommended that this amount be set up.

It is also recommended that the Department waiver the usual requirements of receiving a receipted invoice from the consultant prior to our payment, and permit payment to the consultant prior to his payment to the contractor. In view of the fact that the consultant does not have any other connection with this project, there is no justification to require that the consultant expend funds for our benefit. (January 9, 1967)

Claims - Settlements

5 This claim arises out of an accident which occurred on McLean Boulevard at East 39th Street, Paterson, New Jersey, and resulted in injury to Anthony Cardinalle, an employee of the Maintenance Division, N. J. Department of Transportation. As a result of this accident, the department was required to expend the sum of $3,763.61 for medical treatment and workmen's compensation payments on behalf of Mr. Cardinalle.

Insomuch as subject accident involved a third party, Mr. Cardinalle retained an attorney who subsequently instituted a civil action on his behalf. Prior to date of trial the attorney received an offer of settlement of $4,500.00 and based on this offer, suggested that the State of New Jersey accept $2,000.00 in full settlement of its compensation lien. In the event the Department of Transportation received a full settlement, less statutory allowance for counsel fee and costs of suit, it would recover a net sum of $2,309.07. The attorney based his recommended settlement on the fact that the employee sustained a subsequent compensible injury and fears that a jury would relate part, if not all his injuries, to the second accident. Attached copy of the attorney's letter dated January 24, 1967 outlining his recommendations is self-explanatory.

Giving due consideration to the foregoing it is my recommendation that this offer of settlement receive favorable consideration, in accordance with Mr. Levine's memorandum dated January 30, 1967, attached hereto, and the recommendation of the New Jersey Department of Transportation Deputy Attorney General.

## Design Items

### Detour - Route 21, Sec. 4A

6 Under date of July 14, 1966, two detours were approved for use during the construction of Route 21 Freeway, Section 4A, in the City of Clifton, County of Passaic. Because of certain delays, these detours did not prove to be feasible. It is recommended that the action of July 14, 1966, be rescinded and a new detour be set up.

There is presented herewith a map showing the proposed detour to be established and maintained during the construction of Route 21 Freeway, Section 4A, Cities of Clifton and Passaic, County of Passaic. This detour has been agreed to by the Cities of Passaic and Clifton, and also Passaic County.

Traffic will use Route 21 Freeway, westerly on Route 3, then northerly on Main Avenue to Paulison Avenue, and easterly to River Road. This detour will be used for approximately one year.

The estimated cost of signing, maintaining, electrical work, and barricades is $7,000.00.

It is recommended that the detour be officially adopted and authority be given for setting up the sum of $7,000.00 to cover the cost of signing, maintaining, electrical work, and barricades. Construction funds to be used and costs charged to the above-captioned project. (Feb. 6, 1967)

### Agreement-Jersey Central Power & Light Co.
### Replacement of Existing Structures, Rt. U.S. 9, Sec. 3

7 Approval and execution is recommended of attached Agreement dated October 26, 1966, between Jersey Central Power and Light Company and the Department of Transportation, covering understandings in connection with the Company's proposed construction of an electric generating plant westerly of Route U.S. 9(1953), Section 3 in an area between the south branch of Forked River and the north branch of Oyster Creek, Lacey Township, Ocean County. Inasmuch as the existing bridge spans that carry Route U.S. 9 over the above mentioned tributaries are of insufficient span, the Company has agreed to perform the design and pay the construction cost of the replacement of the existing structures and share in the construction cost of two future highway structures if it becomes necessary.

The estimated amount receivable from the company for the initial contract is $80,000.00. (Feb. 6, 1967)

### Engineering Services - Hardesty & Hanover
### Route 3 Viaduct Approaches to Lincoln Tunnel

8 By Commission Action dated April 20, 1966, additional services were approved for Hardesty and Hanover relative to an investigation of the Route 3 Viaduct in North Bergen as part of our Lincoln Tunnel Approach Agreement dated April 21, 1965. It was the intent at this time to use black and white photography to illustrate the conditions of the Viaduct. After consultation with the consultant, it was apparent that the use of color photography would enhance the value of the report by providing a better means of observing any defects discovered.

In addition, multi-colored layouts for the feasibility studies were authorized to add in the presentation.

The decision to use color photography will increase the cost of printing. It is estimated that the additional cost will be $5,500. It is, therefore, recommended that Item No. 4 of our Agreement dated April 21, 1965 be raised from the interim ceiling of $5,500 (April 20, 1966) to $11,000. (February 8, 1967)

Engineering Services - Hardesty & Hanover
Route 7 & Fish House Road Improvements ✓

9 During the negotiations with Hardesty and Hanover for services in connection with Fish House Road and Route 7 improvements, it was felt that one contract would be prepared. As the project was developed, it was evident that the work could not be constructed in one phase and, therefore, two contracts were necessary. This decision will account for additional printing costs due to the additional sets of contract drawings that must be processed for review, etc.

It is, therefore, recommended that the allowable of $3,500 as defined under Part SECOND, Paragraph (a) 6 be increased $1,000 and to provide reimbursement for $4,500. (February 8, 1967)

Engineering Services - Louis Berger &
Associates - Rt. 80 (I-80-1(3)24) ✓

10 Extra work was performed by Louis Berger & Associates under the terms of our agreement dated August 26, 1964, wherein reimbursement exceeded the contingency factor originally provided when the funds were appropriated.

It is, therefore, necessary to provide additional monies to reimburse the consultant for extra services already performed. Approximately $16,000 is needed; it is recommended that $20,000 be set up to provide for any unforeseen contingencies. (February 8, 1967)

Engineering Services - S & M Land Survey Corporation
Various Field & Office Services ✓

11 Approval and execution is recommended of the attached Agreement dated Nov. 7, 1966, between the S & M Land Survey Corporation, Consultant, and the State of New Jersey covering understandings in connection with the performance of various field and office engineering services relative to the construction of State highways throughout New Jersey. The Consultant is to be remunerated for his services on an accumulative time-hourly rate fee based on approved schedule of classified hourly rates listed in the Agreement; plus repayment for requested printing and reproduction work toward a ceiling of $1,000; payment for use of motor vehicles at $6.00 a day toward a ceiling of $3,000; payment for use of an Electronic Computer toward a ceiling of $2,000; all toward a total ceiling of $25,000. It is therefore recommended that this amount be set up to cover the cost of engineering work called for under this Agreement. (February 1, 1967)

It is therefore recommended that this amount be set up to cover the cost of engineering work called for under this Agreement. (Feb. 8, 1967)

(February 27, 1967)

Right of Way - Route 280

132 There is presented the matter of closing title with John G. Scarrillo and Lucille B. Scarrillo, his wife, pursuant to a contract between the Scarrillos and the Department of Transportation under which the Scarrillos delivered a deed to the State of New Jersey.

A down payment was made pursuant to the contract. It was subsequently discovered that the liens against the property were such that the down payment plus the balance due would not be sufficient to pay the mortgage on the premises and any other liens thereon. Foreclosure was started by the mortgagee and, at the request of the Legal Division, foreclosure proceedings were delayed pending departmental action.

It is recommended that title be closed with the State paying such amounts in excess of the down payment as may be necessary to clear the liens on the premises.

It is further recommended that the matter of fraud be referred to the Office of Investigations and Security of the Department of Transportation, and that the matter of attempting to collect the excess received by the Scarrillos be referred to the Attorney General's Department of Claims. Claims - Settlements

6 As the result of a third party accident occurring on March 10, 1964, Assistant Foreman Joseph W. Lang, Maintenanse Division, suffered personal injuries. As the result of said injuries, the Department of Transportation was required to expend the sum of $822.86 for temporary compensation, $204.25 for medical treatment and $1650 for permanent compensation. The total expenditures amounted to $2,677.11.

Mr. Lang engaged the services of an attorney to represent him in his claim against the third party. At a recent settlement conference before Judge Van Clinton in the Superior Court, Essex County, an offer of settlement in the amount of $3000 was accepted. I am attaching, hereto, letter received from Mr. Lang's attorney which outlines an offer of settlement as to the State's lien and the attorney's basis for said offer.

In the event the State received a full settlement in connection with its lien, after allowing statutory deductions for counsel fees and expenses of suit it would be entitled to receive the sum of $1684.74 in full settlement of its lien. In the event the offer of settlement was not accepted and the case was required to be tried, additional expenses of suit would be charged to the State in which case it would net the sum of $1584.74 on its lien, if a favorable verdict was returned. Since receiving the attorney's letter the Claims Bureau contacted the attorney by telephone and requested that he increase his offer of settlement to at least $1400 net to the State. The attorney has agreed to go along with their suggestion. By accepting the offer of $1400 the State would actually be waiving the sum of $284.74 on its lien without the necessity of trial and $184.74 in the event of an actual trial.

Giving due consideration to the circumstances as outlined in the attorney's letter and also the fact that the State will be relieved of paying the sum of $205 to Dr. Weinstein for medical treatment rendered this employee which will be absorbed out of the third party settlement we feel the attorney's offer of $1400 is fair and reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached hereto and the recommendation of Deputy Attorney General William J. McCormack that the offer receive favorable consideration and be approved. (March 7, 1967)

## SCHEDULE OF APPROVALS - MARCH 20, 1967

### Administrative Items

Claims - Settlements

1 The captioned claim covers the cost of repair to a mobile sweeper which was damaged on March 31, 1966 as the result of a motor vehicle accident occurring on U. S. Rt. 1 and 533 jug handle, West Windsor Township, New Jersey. Two vehicles were involved in this accident, one owned and operated by Bruce J. Eshak and a vehicle owned by the New Jersey State Highway Department. Cost of repair to said vehicle was $348.51. Said vehicle was repaired at Fernwood.

Insurance company for #2 turned the Claims Bureau down and refused payment on grounds that there was no liability on the part of their insured. The insurance company also maintained that the driver of the Highway equipment was the proximate cause of the accident. At a Police Court hearing, the other driver plead not guilty to a careless driving charge and was found "Not Guilty."

The Claims Bureau refused to accept the insurance company's position and continued its efforts in an attempt to negotiate a settlement without the necessity of filing a suit. Subsequent negotiations has now resulted in the insurance company offering the sum of fifty percent in full settlement of this claim.

In view of the foregoing, it is my recommendation, and in accordance with Mr. Levine's memorandum attached hereto, and the recommendation of Deputy Attorney General Joseph Lipkin, that this claim against Bruce J. Eshak be accepted in the amount of $174.25. (March 13, 1967)

It is recommended that this General Property Parcel Map be approved subject to such changes as may be necessary in order to conform with construction plans as finally adopted and approved; and that authority be granted to negotiate for the acquisition of the necessary right of way.

The estimated cost of this right of way is $800,000 and authority is requested to set up this amount from funds available under Item 16, of the 1966 Construction Program. (March 15, 1967)

Right of Way - Route 33

47 There is presented again the matter of setting up of funds on Route 33, Section 3, Control Section 1115-401, Hickory Corner to Middlesex County Line, and Route 33, Section 4, Control Sections 1220-401 and 1304-401, Mercer County Line to Smithburg Road; together with processing forms from Mr. Schonwald which have been approved by Messrs. Cunningham and Schuyler.

Heretofore, the Commissioner of the Department of Transportation approved the General Property Parcel Maps on these projects and authorized the setting up of a total of $900,000 to cover the estimated cost for the necessary rights of way.

It has been found that no 100% State funds are available to acquire the aforementioned rights of way, therefore, it is requested that authority be granted to make the following transfer:

| | FROM | TO |
|---|---|---|
| Route 1&9<br>Haynes Ave. Interchange<br>Item 38<br>1967 Program<br>100% State Project | $1,000,000 | |
| Route 33, Section 3<br>Hickory Corner to Middlesex Co. Line | | $300,000 |

The $1,100,000 in Item 38 of the 1967 program was set up in the program as 100% State and should have been programmed as 50-50 moneys. This transfer will deplete this Item and the necessary 50-50 funds will be set up at a later date. (March 15, 1967)

These funds are available under Item 26 of the 1967 program.

Authority is requested to make the following set ups:

| Route | Section | Federal Project | Amount to be Set Up |

In as much as the registered fair market value determination in the sum of $250 was previously deposited in the Superior Court, and the owners of record are unable to be located, no request for withdrawal is being made, since the amount of the award will remain on deposit until such time as the owner makes appearance, or the sum escheats to the State. A condemnation commissioners award in the sum of $128,750 was previously approved by the Commissioner on July 8, 1966. This award covered Parcel 2R172B; in respect to Parcel 2R172C, a condemnation commissioners award was previously entered in the sum of $189,750, and this award was also approved by the Commissioner. Both awards were subsequently appealed by the owner.

On the date set for trial, but prior to the entry of any expert testimony, the owner's attorney indicated that they would settle both cases for a combined total of $357,000, which would include all interest. Two consent judgments were therefore entered in the sum of $142,000 for Parcel 2R172B, and $215,000 for Parcel 2R172C.

The matter is submitted for the Commissioner's consideration and approval of these consent judgments in the sum of $357,000, together with interest at the rate of 6% from the date of the entry of the judgments on February 6, 1967, to date of payment.

The Commissioner authorized an appeal on December 16, 1966 from a condemnation commissioners award in the sum of $22,600. On the date set for trial but prior to the entry of any expert testimony, the owner agreed to settle for the sum of $21,500 which includes all accrued interest with the understanding that the State will pay this Judgment in the sum of $21,500 within 60 days from February 28, 1967. Right of Way - Route 280

Re-appraisals to conform to these ownerships and the complaint date resulted in a total fair market value of $483,375.

At the trial before Judge and Jury, a legal settlement achieved a Consent Judgment in the amount of $573,300.,representing $490,000 for the takings and $83,300 in interest from the date of possession, April 21, 1964, to the date of Judgment, February 23,1967. The Court further ordered that the Judgment bear interest from date of entry of Judgment to date of payment, and the dismissal of the complaint for Parcel R3B, which was legally land-locked and damaged in condemnation but physically accessible to the owner by means of unity of use through other title chain. The fair market value for the acquired parcels, without the dismissed Parcel R3B,is $435,000. The variance,exclusive of the interest which the Court would have added to the total Judgment, is not substantial. The settlement has resulted in a great reduction of the Commissioners' award and has eliminated the cost of the dismissed land-locked parcel which would have resulted in testimony by the State based on the fair market value determination of $483,375.

The Consent Judgment is in the public interest and approval is recommended. There has been no deposit made into court in these cases. (March 20, 1967)

There has been no deposit made in Court in this case. (March 20, 1967)

It is further recommended that the Legal Division proceed with the foreclosure proceedings in an attempt to cut off the lien subsequent to the mortgagees.

An appraisal received after the order was issued to N. J. Appraisal Co. indicated a value less than $25,000, and a second appraisal is therefore not required.

Mr. Friday advised that he was unable to complete his appraisal in time for our needs and the order is therefore being cancelled.

**Legal Division Items**

Right of Way - Route 4

225 There is presented the matter of the acceptance of the cimmissioners' award in the condemnation of property on Route 4, Section 2, Parcel 11, in the Borough of River Edge, owned by George W. Finke and Ella B. Finke, his wife.

At the hearing before condemnation commissioners, the owners' testimony was in the amount of $35,000. The State's testimony was in the amount of $24,000, just $2,000 less than the award. The commissioners awarded $26,000.

I am advised that the original appraisals were updated and that the land which was used for a gas station before the State's taking can no longer be used for that purpose, the parking space is gone, the remainder is nonconforming and the only value which it now has is apparently whatever the owner may be able to obtain from the adjoining owner.

It is recommended that the commissioners' award be accepted. (April 10, 1967)

Right of Way - Route 37

226 There are presented report and appraisal with map and description on Route 37, Section 15, From Toms River Relocation At Washington Street to Thomas A. Mathis Bridge Approaches at Pershing Avenue, Parcel E118, property owned by Frank J. Pietrucha and Marie T. Pietrucha, his wife.

It is recommended by Legal Division that a proposed settlement in the amount of $300 be accepted. Right of Way Division requested authority to institute condemnation proceedings. The owner is an employee of the Department of Transportation. The Highway Department's figure is $200 as against the $300 demand.

Right of Way Division has been requested to prepare an agreement. (April 14, 1967)

Right of Way - Route 38

227 There is presented the matter of the acceptance of the commissioners' award in the condemnation of property on Route 38, Section 2, Parcel 20, in the Township of Maple Shade, owned by John Nells.

At the hearing before condemnation commissioners, the State's testimony was in the amount of $100. The commissioners awarded $200.00.

In view of the amount involved it is recommended that payment be made as recommended by Deputy Attorney General Lipkin who reviewed the file. I have not had an opportunity to go through the whole file to find out why this matter went through condemnation when so little money was involved. (April 10, 1967)

Right of Way - Route 55 Freeway

228 There is presented the matter of the acceptance of the consent judgment entered in the condemnation of property on Route 55 Freeway, Section 6, Parcel 7, in the City of Millville, owned by Vladimir Smolakov and Vera Smolakov, his wife.

The consent judgment is in the sum of $10,500. At a trial on appeal the owners' testimony would have been in the amount of $12,000, the figure presented to the condemnation commissioners. The State's testimony would have been approximately $9,100. Trial counsel discussed the matter with Mr. Hyde who approved the settlement of $10,500 with interest.

This file has been reviewed by Deputy Attorney General Lipkin who approves the amount agreed upon. I join with him in this recommendation. (April 10, 1967)

Right of Way - Route 70

229 There is presented the matter of a settlement in the condemnation of property on Route 70 (1953), Section 1, Parcel E48, in the Township of Cherry Hill, owned by Allan Dixon and Leanore D. Dixon, his wife.

The settlement is in the amount of $500. The Right of Way negotiators offered $300. Involved is a sub-surface drainage ditch. A similar easement of adjoining property was settled for $400. The owners' attorney was asking $1,000. After negotiations with Deputy Attorney General Lipkin, he is willing to take $500.

It is recommended that such settlement be approved.
(April 10, 1967)

Right of Way - Route 80

230 There is presented the matter of taking an appeal from the condemnation commissioners' award in the condemnation of property on Route 80(1953), Section 3D, Parcels 10A & 10B, in the Borough of Fairfield, owned by Clayton Holding Co.

At the hearing before condemnation commissioners, the owner's testimony was in the sum of $13,162.50. The State's testimony was in the sum of $8,925. The commissioners awarded $13,000.

An appeal is recommended as well as the hiring of a court witness from the area of the premises involved. (April 13, 1967)

Right of Way - Routes U.S. 202 & 69

231 There is presented the matter of a Legal Division settlement made by Deputy Attorney General John F. Cannon, in the condemnation of property in the Township of Raritan, owned by Adam Haydu and Mary M. Haydu, his wife.

For some reason this went to Mr. Hyde instead of being processed by Legal. In a memorandum to me, dated March 16, 1967, Mr. Cannon claimed that in making settlement he could not get Right of Way to set a fair market value. Mr. Hyde contends that a fair market value was set, but the date he mentions is March 31, 1967. The settlement was made on March 9, 1967.

There appears to be more involved than this problem between Mr. Cannon and Mr. Hyde. Apparently Mr. Cannon made some deal in which the Department was to obtain as part of the settlement two acres of the owners' property which the owners claim we made worthless. I do not believe Mr. Cannon had the authority to acquire property for the State. I am asking him to give me a complete outline of the entire situation. Meanwhile, Legal Division has taken an appeal to protect the State's interest.

Recommendation is hereby made that said appeal be authorized and confirmed. (April 14, 1967)

Right of Way - Route 280

232 There is presented the matter of approval of trial counsel's recommendation that an appeal be taken and an additional court witness be hired in the condemnation of property on Route 280, Section 4, Parcels 2A & 2B, in the Township of West Orange, owned by John A. Paolercio, et al.

At the hearing before condemnation commissioners, the owner testified to a figure of $24,600. The State's figure was in the amount of $14,122. The commissioners awarded $24,600.

An appeal is recommended together with a recommendation that an additional outside court witness be employed for the appeal. (April 13, 1967)

Right of Way - Route 287

233 There is presented the matter of the acceptance of the commissioners' award in the condemnation of property on Route 287, Section 7, Parcel 145, in the Township of Bernards, owned by Inez Peroni.

At the hearing before condemnation commissioners, the owner's testimony was in the amount of $28,500. The State's figure was $18,500. The commissioners awarded $27,500.

In view of the difference between the State's testimony and the commission award, an appeal is recommended. (April 10, 1967)

Right of Way - Route 287

234 There is presented the matter of the acceptance of the judgment in the condemnation of property on Route 287, Section 9, Parcels 53A and 53B, in the Town of Morristown, owned by S. H. Malcolm Plum and Susan Alieta Plum, his wife.

At the trial before the court and a jury, the owners offered testimony in the amount of $20,250 and in the amount of $19,200. The State's figure was $8,600. The verdict was in the amount of $11,800 to which the court added interest at six per cent on (1) the entire amount from the date of filing of complaint to the date of making deposit into court, and (2) interest at six per cent on the excess from the date of deposit to the last day of trial. The commissioners' award was in the amount of $17,500.

Acceptance of the verdict in the amount of $11,800 together with the interest mentioned is recommended. (April 13, 1967)

The owner's figures vary between $25,100 and $30,000. The State's figure was in the amount of $16,500.

In this case the State's witness was from out-of-state and this was the first case in which any such appraiser has made a good witness in court.

Attention is called to Mr. Hila's report that the staff man, who fixed fair market value, was not permitted to testify as to fair market value because this was not his own appraisal.

The commission award is in the amount of $20,000. An appeal is recommended. (April 24, 1967)

93 There is presented the matter of appealing from an agreed commission award in the condemnation of property in the Township of Ewing, Route 29, Section 15, Parcel 15, owned by Janet H. Hurst, formerly Janet Hill Pistell.

The fair market value was set at $160. Deputy Attorney General John F. Cannon settled the case for $4,000. He included in the settlement not only the land in condemnation but land under the Delaware River concerning which there is some controversy as to title.

Recommendation is hereby made that said appeal be authorized and confirmed. There are two other settlements made by Mr. Cannon in the same area and at the same time. However, the amounts involved do not seem to warrant an appeal. (April 24, 1967)

Right of Way - Route 45

94 There is presented the matter of the acceptance of the commissioners' award in the condemnation of property on Route 45, Section 1, Parcels 13A & 13B, in the City of Woodbury, owned by Cascade Laundry, Inc., a corporation of New Jersey.

At the hearing before condemnation commissioners, the landowner's testimony was in the amount of $48,900. The State's testimony was in the amount of $46,000. The fair market value was in the amount of $46,000. The commissioners awarded $47,450. As a deposit of $46,000 was made into court, a recommendation is made to pay to the owner the difference between the amount of the award; namely, $1,450.

Acceptance of the settlement is recommended. (April 24, 1967)

98 There is presented the matter of making a deposit with the Superior Court in the condemnation of property on Route 80, Section 5K, Parcel 22, in the Township of South Hackensack and Borough of Teterboro, owned by Aeroil Products Company, Inc., a corporation of Delaware.

This matter came on for commission hearing on March 31, 1967. The owner's attorney made objections to proceeding on various grounds which the court has subsequently overruled.

It is hereby recommended that the fair market value which has been fixed in the amount of $13,000 be paid into court. This is an old case. I have not yet had an opportunity to go into the reasons for delay. The recommendation is made to stop further running of interest. (April 24, 1967)
